

# Our Public Sector Practice transforms the Local Authority Digital Transformation Landscape

## Digital Readiness & Transformation Programme

Our Digital Readiness and Transformation Programme offers a comprehensive service designed to assess your digital readiness and deliver a digital and technology roadmap to drive cost savings, productivity and economic growth through targeted innovation within your services and places

## Features

- Phase 1 assesses your digital readiness, identifies gaps compared to peers, and provides a strategic roadmap for digital transformation of your organisation and place
- Phase 2 develops the strategic case for change, including the business case to secure investment and identify funding sources
- In Phase 3 we implement your digital roadmap, collaborating with procurement teams, the market, ensuring benefits realisation

## Key Outcomes

- Future-proof your organisation and region's digital infrastructure
- Streamlined processes and resources
- Faster, more reliable digital services for citizens, improving engagement and satisfaction
- Unlock new opportunities for growth and innovation
- Data-driven insights improve strategic decisions and effective policy implementation
