

Our **Public Sector Practice** transforms the Local Authority Digital Transformation Landscape

Digital Readiness & Transformation Programme

Our Digital Readiness and Transformation Programme is a proven, end-to-end system that assesses organisational and place-based digital maturity across five core pillars: connectivity and infrastructure, health and housing, economic growth, smart public services, and ICT and education. It identifies strategic opportunities for improvement and has unlocked millions in investment across fibre, 5G, IoT, and digital services. We go beyond diagnostics—delivering tailored roadmaps, investible business cases, and delivery support to help councils translate digital ambition into measurable outcomes.

Enabling Digital

Here's what some of **our clients** say

“Intelligens Consulting played a crucial role in our digital transformation journey. They conducted a thorough digital maturity assessment, successfully engaged stakeholders, and developed a strategic IoT roadmap tailored to our needs. Their expertise helped us enhance digital readiness, improve service delivery, and implement innovative IT solutions, ultimately driving efficiencies and better outcomes for our community.”

— Steven Watt, Business Change Manager – Digital Transformation

“Intelligens Consulting played a pivotal role in our transition into a leading digital tourism destination. Their expertise in crafting a comprehensive Outline Business Case for our 5G-enabled tourism experience was exceptional. They demonstrated a deep understanding of technical and strategic needs, positioning us at the forefront of digital innovation. Their contributions have set a foundation for long-term growth and connectivity in the region.”

— Steven Eke, Head of ICT

“Intelligens Consulting's support in developing our DSIT bid was instrumental in our success, showcasing their market insight and strategic planning excellence. Their expertise not only secured critical funding but also set the stage for transformative 5G deployment, promising enhanced connectivity and community benefits. We're confident in their continued support to realise the full potential of this initiative.”

— Julia McMurdie, Digital Manager

“As the leader of our digital transformation efforts, I can't overstate the impact that Intelligens Consulting has had on our journey. Their expertise attracted significant fibre investment, laying the groundwork for future-proof infrastructure. Their hands-on approach, innovative solutions, and unwavering support have accelerated our progress and made our vision for a connected region a reality.”

— Patrick Murray, Director of Digital
