

# Our Transaction Advisory Practice empowers investors and operators with in-depth insights for strategic success

## What We Do

Comprehensive advisory support for investors and operators, offering technical, market, and commercial due diligence along with expert vendor due diligence for informed entry, growth, and exit strategies in M&A and other transactions

## Our Clients Include

- Investors seeking confident entry into new markets with verified insights
- Operators looking to enhance or divest their portfolio
- Companies preparing for M&A, exit strategies, or growth
- Boards and executive teams requiring robust strategic guidance

## Key Outcomes

Informed investment decisions, maximise asset value, optimise returns, smooth transaction process and strategic exits

## Features

- Technical due diligence of technical assets and infrastructure
- Market and commercial due including market research, trend forecasting, and competitive analysis
- Rigorous preparation for vendor divestments and exits
- Customised to fit specific needs of each transaction e.g., M&A, partnerships, or asset divestitures

## Benefits

- A deeper understanding of risks, costs, and potential returns
- Leveraging market insights for strategic expansion
- Ensuring assets are accurately valued, unlocking maximum transaction value
- Clear exit and entry strategies, aligned with market dynamics and investor goals
